

“ROCKET2” - OXY STRIPES

	DRY SINGOL STRIPES	WET SINGOL STRIPES
MATTE VINYL	x	
SATIN VINYL	x	
GLOSS VINYL		x
VINYL 3D (CARBON, BRISHED, ETC)	x	
ARCHITECTURAL VINYL	x	
PPF		ROCKET1
POLIESTER (WINDOWS FILM ETC)		ROCKET1

The table is intended as a guide and a suggestion for the correct use of the “Rocket2” felts by OXY TOLLS.

The tests were carried out using 3M PA1 spatulas (gold, blue, white)

Sliding tests have been carried out on the following films:

3M Series 1080 - 1380 - 2080 - IJ180 - DiNoc, in different finishes, laminations and textures, plus 3M PPF pro and Windows film / 3M Fasara film.

Different squeegee, films and application conditions could generate slightly different feedbacks and sensations.
